

Ultratherm[®] **PET CASSETTE**

A safe alternative to using lamps for kennels and general animal heating. The **PET CASSETTE** produces an even radiant heat that is maintained at a safe level by an internal thermostat, ensuring a gentle efficient distribution of warmth over a wide area.

Designed for direct fitting to wall or ceiling. If required the **PET CASSETTE** can be suspended by chains to the desired height.

Available in two sizes:

PC1: 380 x 410mm, 110Watts 230Volts

PC2: 380 x 790mm, 225Watts 230Volts

The **PET CASSETTE** is provided with a conveniently placed red neon indicator lamp, indicating that the unit is operating.

The simple shape of the **PET CASSETTE** has a particularly hard wearing finish that is easy to clean. These cassettes are very reliable, have NO moving parts and are completely unaffected by frost. Purchase of the **PET CASSETTE** represents a permanent investment, that will give a maintenance free long life.

PC1 and PC2 heaters are covered by a 12 month warranty from the date of purchase. The warranty does not cover damage resulting from transportation, improper storage, installation or use.

***Low power. Low running costs. Reliable High Efficiency Radiant Heat.
Heating that radiates comfort.***
